

# LIFE SCIENCES DISCOVERY LIVES HERE

Ontario is taking life sciences to the next level, tackling some of the biggest challenges the world has ever seen. In 2022, the province released a comprehensive strategy to establish Ontario as a global biomanufacturing and life sciences hub leading the development, commercialization and early adoption of innovative health products and services.

Our diversified sector, collaborative spirit and deep talent pool are creating medical innovations that will improve health care delivery around the globe. Whether you want to expand your operations here or source some of the highest quality medical products and services in the world, Ontario is your life sciences destination.
